As we look forward, the hyper-connected world brings with it a new era of opportunities for industrial and economic growth. Economic players worldwide must therefore heed the call to invest in the innovation economy as a conduit to unlocking sustainable value from the global economy.

ZITF 2023: Spotlighting Innovative Ideas

"Continuous Innovation, Global Competitiveness." Consequently, economic mobility and impactful entrepreneurship will be key indicators of a positive trajectory in this revolution while sustainable economic confidence and global competitiveness are the ultimate end goals.

ZITF 2023 is undoubtedly the ideal platform to position for global competitive through innovation exploration and information interchange for economic visionaries determined to make a difference through entrepreneurship, intrapreneurship and positively disruptive economic development contributions in their various fields.
