

9

th International Symposium on Innovative Approaches in Smart Technologies

June 27-28, 2025 Gaziantep - Türkiye - Hybrid (In-person and Virtual)

ISAS 2025

Topics

- Track 1: Smart Computing
- Track 2: Applications of Smart System
- Track 3: Machine Learning and Computer Vision
- Track 4: Robotic Systems
- Track 5: Metaheuristic Algorithms
- Track 6: Smart Communication
- Track 7: Smart Security Mechanism

Dear Respected Colleagues,

On behalf of the Organizing Committee, we invite you to the 8th International Symposium on Innovative Approaches in Smart Technologies (ISAS), held on June 27-28, 2025 Gaziantep - Türkiye - Hybrid (In-person and Virtual).

The technical program of ISAS 2025 will include the presentation of invited speakers, panels, tutorials, special sessions, posters, and regular sessions. ISAS is an international symposium organized by universities, research groups, companies, and technology groups from many other countries to communicate their research results and innovative applications in the field. ISAS aims to create collaborative networks of universities, researchers, and the private sector.

In addition, 9th International Symposium on Innovative Approaches in Smart Technologies aims to contribute to new results in the fields of Neural Networks and Machine Learning, Communication and Networking, Security, Information System, Signal Processing, Evolutionary and Swarm Algorithms, Fuzzy Sets and Systems.

All submitted full papers will be double-blind peer-reviewed and evaluated based on originality, research content, correctness, relevance to symposium and readability. Accepted and presented full papers will be published in IEEE Xplore. Additionally, abstracts, tutorials and poster presentations will be published with ISBN in the ISAS2025 companion proceeding.

Thank you for your scientific contribution and support to ISAS 2025.
