

Dr. Sajida Al-Jubouri & Sons
Medical Supplies Group

Dear Ladies and gentlemen

Welcome to this presentation which aims to highlight the advantages of investing in our company. We believe that successful investments come from mutual trust and sustainable partnerships.

Through this presentation, we will provide you with a comprehensive view of the [investment opportunities available to us](#) and the unique advantages we offer to investors

Dear Ladies and gentlemen

Dr. Sajida Al-Jubouri & Sons Group is one of the pioneers in Iraq in the field of medical supplies. We have extensive experience in the field of dentistry and have contracts with the Ministry of Health. We are proud to be the pioneers in this field as there is no equivalent to these laboratories, whether at the governmental or private level inside Iraq.

Investment Opportunities

- **Return on Investment:** We guarantee investors a rewarding financial return on invested capital through our well-thought-out strategies geared towards sustainable growth. The land will be owned by us and within two years the investor will become a partner with us in the land at a rate of 49% according to the Iraqi Investment Law No. 13 of 2006 amended by Law No. (2) of 2010
- **Legal Guarantees:** We provide all the necessary legal and fundamental approvals from the Ministry of Health - Ministry of Industry - Ministry of Environment - Ministry of Agriculture and Urban Planning - Or Platform to ensure that the work proceeds legally.

Investment Opportunities

- **Land Protection Guarantee:** The industrial city has contracted with an Iraqi government security company accredited to protect property and workers.
- **Marketing Guarantee Contracts** will be directly with the Ministry of Health / General Company for Importing and Marketing Medicines - Kimadia.
- **Product Protection Guarantee:** Activation of the Iraqi Products Protection Law by the Ministry of Industry and Minerals, Organization Department, pursuant to its letter No. 2712 dated 5/5/2019

Investment Opportunities

- **Return on investment - Export outside Iraq:** The state will grant the exporting party 15% of the export percentage to encourage the investor to produce and export.
- **Guaranteeing the provision of services to the invested land:** Factories within the industrial city will be provided with all health and environmental services, paved roads, sidewalks, sewage networks for medical waste, electricity and water services

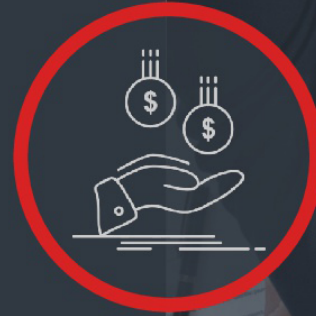

Type of partnership:

- The investing partner will be responsible for the construction operations and equipment of the machines and thus will have a share in the land on which the factory is built.
- He will be a financial partner and will guarantee his financial share and the contracts will be signed and documented in the official authorities.

1- Financial guarantee:

The availability of the land and all legal approvals and he will be a partner in the land if the construction and machinery equipment are completed.

2- Security:

The industrial city has contracted with a security company to provide protection.

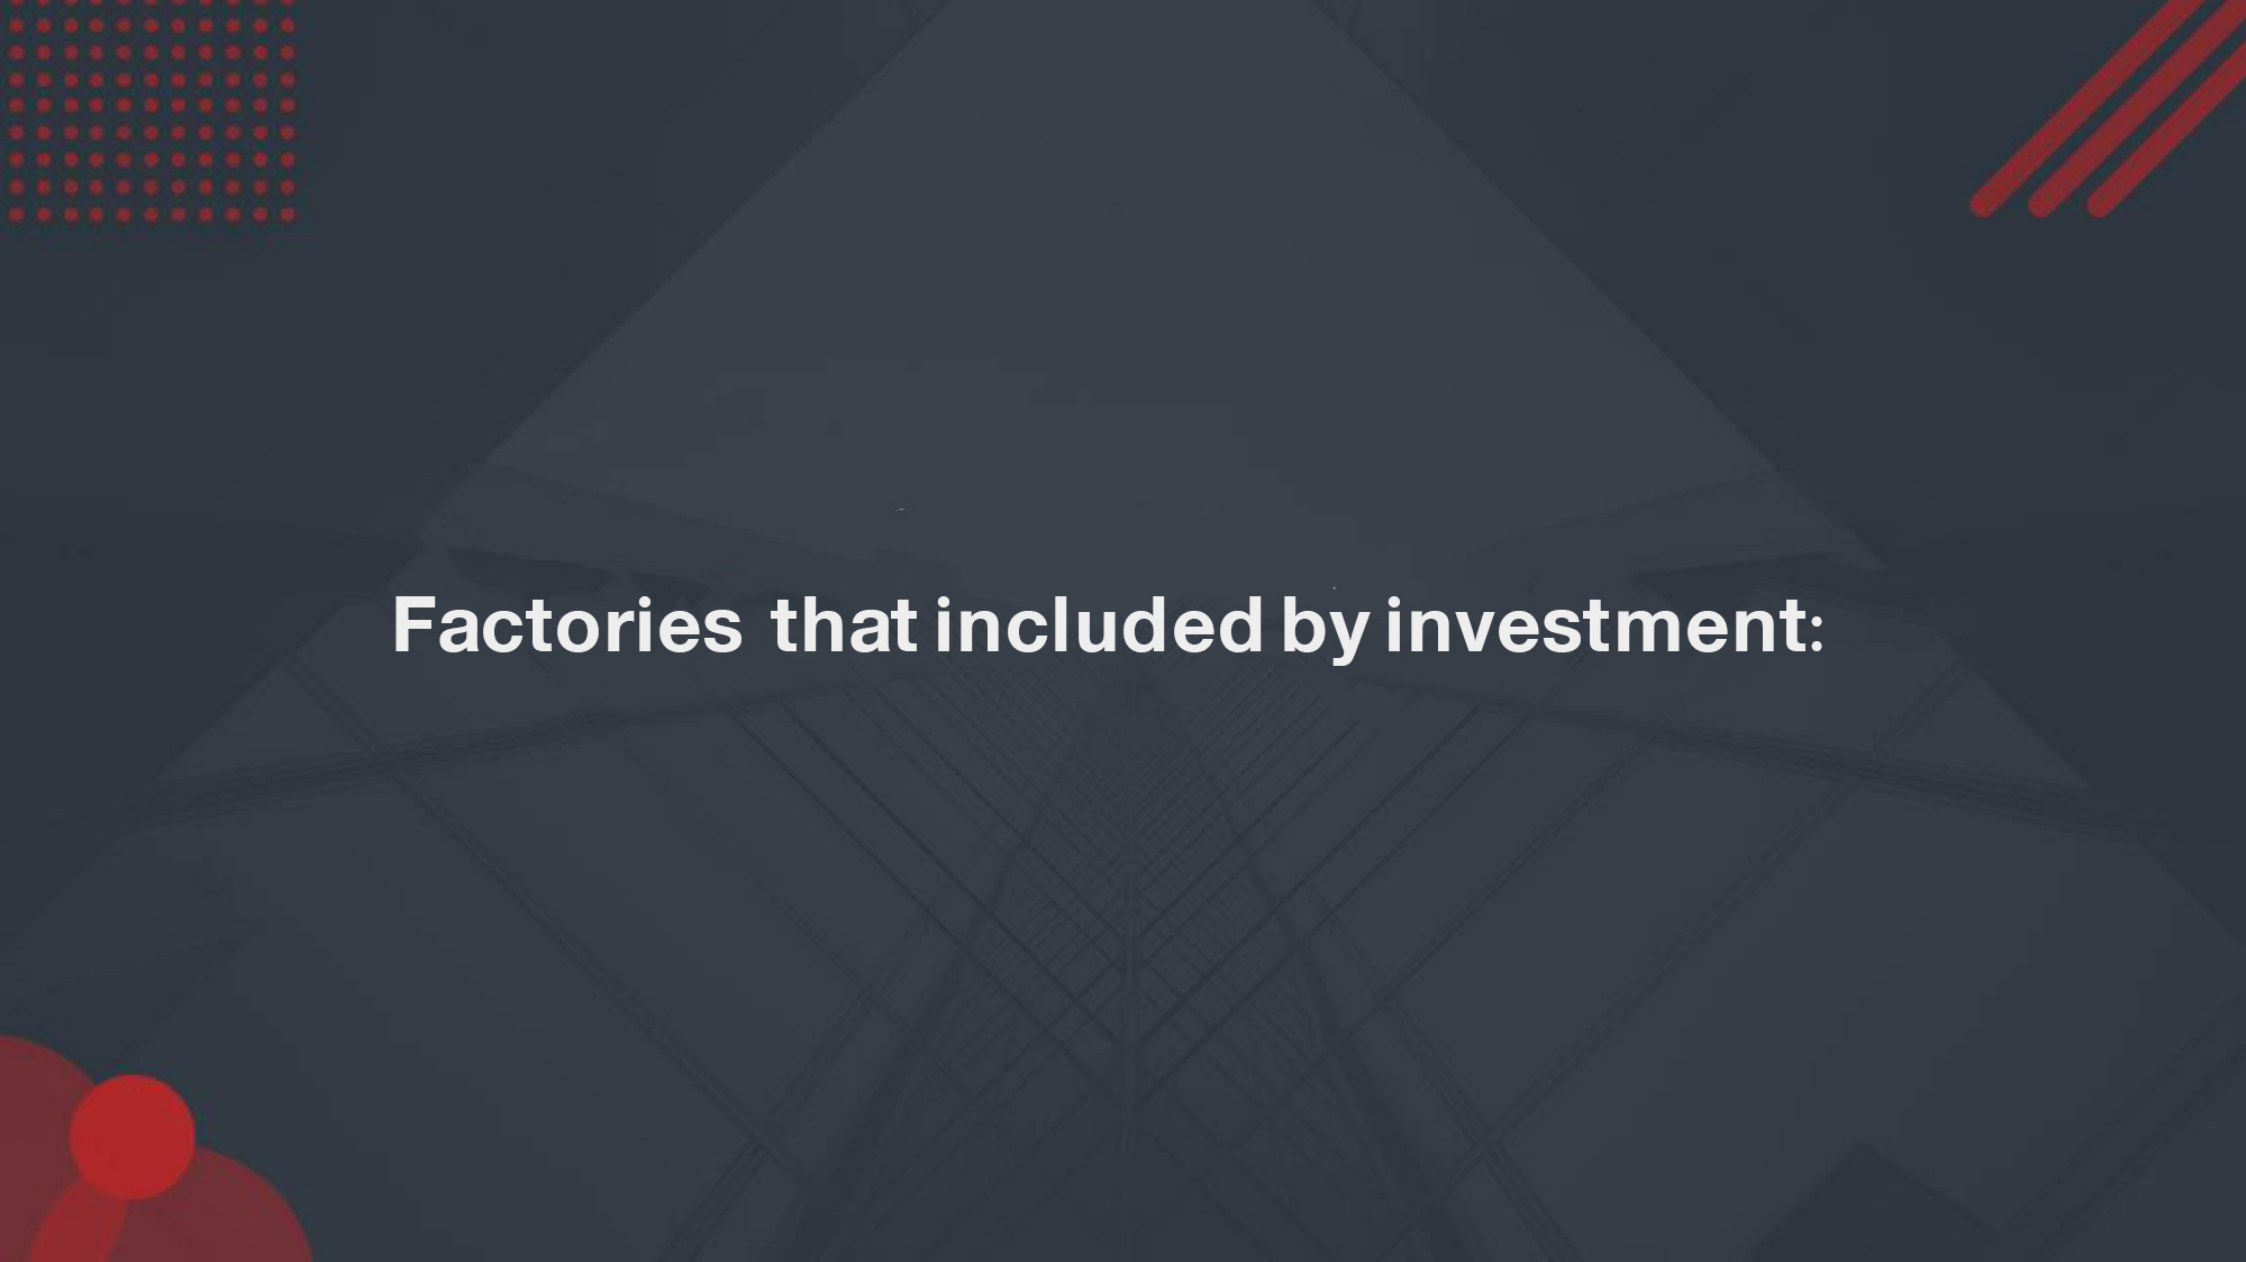

3- Marketing:

Direct contracts with the Ministry of Health.
